- The brand is on track to grow the proprietary business, with 8 stores confirmed to open in 1H24 and is clear on the runway ahead of new stores to open by market

- **Wholesale evolving model:** following record wholesale channel performance, further door growth opportunities exist in the near term to gain more market share in existing markets
- Premier is delighted to announce that Smiggle has signed an agreement with an existing wholesale partner to open freestanding stores in United Arab Emirates, Qatar, Kuwait, Oman and Bahrain. These freestanding stores will be in addition to the partner's current successful 'store-in-store' arrangements. The new agreement reached provides for the opening of 60 freestanding stores within the next ten years in the above-mentioned markets, subject to certain key performance indicators and other requirements being met by the partner. Seven freestanding stores are planned by the partner to open before Christmas 2023 (3 stores in UAE and 4 stores in Qatar) with an additional 13 freestanding stores planned to open during calendar year 2024
- Under the new agreement, the wholesale partner will continue to procure products from Smiggle under its wholesale arrangements and will be responsible for all costs and store fit-outs associated with operating the freestanding stores
- Other key wholesale partners will also have the ability to evolve their current model to include freestanding stores, providing material growth in other key markets in the medium term through a capital light strategy with proven, best-in-class long term partners

Appendix

Overview of Premier's non-IFRS financial information

- IFRS financial information is financial information that is presented in accordance with all relevant accounting standards.
- Non-IFRS financial information is financial information that is presented other than in accordance with all relevant accounting standards. For example: Adjusted net profit after tax, Pre AASB 16, significant, one-off items, non-recurring costs, like for like sales and EBIT.
- Any non-IFRS financial information is clearly labelled to differentiate it from reported/IFRS financial information. Premier Investments provides reconciliations in the footnotes and appendix in order to allow the reader to clearly reconcile between the IFRS and non-IFRS financial information.
- Premier Investments' management believes that the presentation of additional non-IFRS information in its results presentations provides readers of these documents with a greater understanding into the way in which management analyses the business as well as meaningful insights into the financial condition or Premier's overall performance.
- Like for like sales growth is calculated on a store by store daily basis in each market, including online stores. Only stores open on the same day in each corresponding period have been included in the LFL percentage growth calculation.
- The Australian Securities and Investments Commission (ASIC) acknowledges the relevance of non-IFRS financial information in providing "meaningful insight" as long as it does not mislead the reader.

Forward looking statements

- Any forward looking statements contained in this document have been based on expectations at the date of preparation. The forward looking statements included in this document may generally be identified by use of forward looking words such as believe, target, aim, expect, planned or other similar words. Nothing contained in this document is, or may be relied on as, a promise or representation as to the accuracy or likelihood of fulfilment of any forward looking statements, except to the extent required by law. You are therefore cautioned not to place undue reliance on any such forward looking statements.
- Subject to any obligations under the Corporations Act or the ASX Listing Rules, Premier does not give any undertaking to update or revise any forward looking statements after the date of this document to reflect any change in expectations in relation thereto or any change in events, conditions or circumstances on which any such statement is based.
